The Interior Journal.

STANFORD, KY.

Friday Morning, December 9, 1876.

W. F. Walton, Editor and Proprietor.
T. R. Walton, Jr., Business Manager.

It is the almost unanimous opinion of the public and of prominent newspaper men of both political parties, that we are now without a leader among statesmen in the Republican or Democratic ranks. A man of brains, or pioneer, as it were, of our national ship of State, does not live at the present time. Clay, Webster, Calhoun, Douglas, Cass, Sumner, Chase, and others of their ability, have left us without a single man to wear the mantle of either. Who is the "coming man" in this question. It is said that occasions and circumstances make the man, and not the reverse. If that be true, the occasion and circumstances are now surrounding us as a people. Never before in the history of the Republic, has there been a better time for a man of real ability to gain an eminence not less elevated than the positions held by the dead leaders of the past. From which party he may come, if from either, or whether he comes at all, remains for time to develop. He does not exist at this time, most assuredly.

Hon. J. Warren Griggs

The county of Boyle did itself a distinguished honor when the elected gentleman to a seat in our coming Legislature, Mr. Griggs, is not only a finished scholar and a polished gentleman, but is, eminently, a fine parliamentarian. We unhesitatingly assert that no better selection could be made for speaker of the House than Col. Griggs. His ability as a scholar, lawyer, and parliamentarian, together with his urbanity and great personal popularity, mark him as the one who should be chosen to that important position. Men of all parties would find him to be fair and impartial in the discharge of the onerous duties which devolve upon the speaker. We have but slight personal acquaintance with the gentleman, but those who know him well assure us that he deserves all we have stated above.

Why does the Cincinnati Enquirer urge the election of one Banks, of Mississippi, to the Clerkship of the U. S. House of Representatives, over Hon. George M. Adams, of Kentucky? Conceding the speakership to a northern Democrat, it occurs to us that the Enquirer should favor the election of Mr. Adams to the clerkship. If any man ever fairly earned such a position and distinction at the hands of his party, Adams is that man. He did more to make the Kentucky delegation in Congress a unit than any one man in the State. He redeemed an almost sullied Radical district from the hands of that party and gave it to the Democrats as long as he consented to aspire to the position which he held for many years. Our party owes it to Mr. Adams and to themselves, to make him our next Clerk.

We have repeatedly interviewed the Hon. Thos. W. Varnon, to ascertain his choice for U. S. Senator, but have each time found it easier to extract "blood from a turnip," than an opinion on that subject from him. We thought, however, that while the enthusiasm "rekindled" by Gen. Williams' recent visit here was still warm, we would make one last grand effort to learn the way his vote would be cast. "I'll vote for whoever the Democratic caucus nominates," was all we could get.

We were originally, for Beck, but have now come to the conclusion that a man who can maintain such a dignified silence on such an important subject, deserves the place himself. So, Hurrah! for Thos. W. Varnon, our United States Senator.

Some of the Northern newspaper editors assert that the cause of the postoffice deficiency of \$8,000,000, is the "great extent of our territory, and the littleness of the South and West." They think because our editors, ministers, lawyers, teachers, governors, etc., do not wear gold-banded spectacles at thirty, and become bald-headed at thirty-five, that we are an illiterate set of asses—men and women. They believe that those conditions are *prima facie* evidence of immense brains greatly worked, and in their absence no man or woman can be a scholar. What have these things to do with the expenditures and receipts of the postoffice Department? Echo answers—what?

A witness in one of the trials of the whisky ring at St. Louis, the other day, said it was reported that Secretary Bristow owned an interest in a liquor house at Louisville. The Secretary has made an indignant denial of the charge, and says it is a most infamous lie. He desires a full and searching investigation into the report by the Grand Jury, and to that end, demands that all the witnesses be summoned to tell what they know.

JOEL T. HART, the great Kentucky Sculptor, who has resided in Italy for a number of years, has completed the plaster cast from the model in clay, of his wonderful work of Art titled "Triumph of Chastity," upon which he has been at work for eleven years.

No-wondering the law of the State which prohibits a ruler severely against those who bet or gamble on elections, we notice that thousands of dollars are offered to bet in the race for the Mayorality of the city of Louisville. More than this, we read in the *Courier-Journal* that Hon. E. D. Standiford, an ex-member of Congress from that district, and who is at present the President of the L. & N. Railroad company, is one of the mounted men who offers to put up large stakes on the result of that election. Is it possible that the plain statute laws of the Kentucky can be thus violated with perfect impunity? If these men were "common" folks, the grand juries of the city would haul them over the coals at once. As it is, however, we presume they will be permitted to go Scot Free.

W. B. Astor's wealth was enormous. Peter Cooper, himself a millionaire, says it is almost incalculable. John Jacob Astor, his father, left about twenty millions, and died at the age of 83. His son, in whom he bequeathed the bulk of his vast estate, died at 84 worth between one hundred and fifty and two hundred millions of dollars. Besides the thousands of houses he owned in New York and Brooklyn, he also owned the whole town of Green Bay, Wisconsin. Although so far along in years, Mr. Astor went to his office daily until within a few weeks ago.

The Philadelphia Times refers to the death of Vice President Wilson and Wm. B. Astor, which occurred within a few days of each other. Over one it says, "A Nation mourns and says we have lost a good man." Over the other, "people are only curious to know how much he was worth and what he did with it by last will and testament." The one "devoted his life and energies to gaining that which he conceived to be his country's glory, and the other struggled to become the richest man in that country."

Gov. INGERSOLL, of Connecticut, has appointed ex-Governor English, of that State, Senator, to fill the vacancy caused by the death of Hon. O. S. Ferry. Mr. English is a Democrat. Our party has gained ten Senators in the present Congress. If we are successful in the next two years, which seems altogether probable, we will have a majority in that body when the next President takes his seat. What a glorious time we'll have, with a Democratic Chief Magistrate and Congress!

THIEVES are always busy concocting new plans to make successful raids upon honest people. The latest "novelty of design" was exhibited in Louisville the other night, when a band of midnight serendipity went to a store, and while one-half of them were discussing sweet ale to the delight of the awakened inmates, the other half made a raid upon the rear door, broke it open and stole what they wanted. So says a local reporter of the *Courier-Journal*.

KENTUCKY is richer in minerals and ores than any other State in the South. The only way to ascertain her resources in that respect, is to have a thorough geological survey. We have conversed with a number of our legislators as to the appropriation of a further sum to aid in the survey, and from what we can learn, so far, there is a decided sentiment in favor of a much larger appropriation than has been heretofore given. The people would endorse it heartily.

The editor of the New York Sun, in speaking of the three prominent men who aspire to the Speakership of the U. S. Senate, says he has loved Randall ever since he made such a grand battle against the Force Bill; that he has great faith and love for Mr. Cox, but when it comes to the point of choosing a speaker he advises all of the opposition to vote for M. C. Kerr of Indiana—not that he loves Randall and Cox less, but Kerr more.

The New York Herald, says:—"It is a curious satire on the course of human events, that Seward, Chase, Sumner, and Wilson, have died out of the party they founded and adorned, and that Grant, Butler, Morton and Logan, are installed as its leaders." Truly, the world's ways are past finding out, and parties are ungrateful. The present leaders will kill outright the party they would rule or ruin.

It is said by Mr. Joseph Walton, an old head and silver miner, that the counties of Livingston and Crittenden, in this State, are rich in lead, and will yield as much ore as any other mines in the world. Prof. Shaler, our State Geologist, agrees with him in that opinion. Prof. Shaler has surveyed these mines.

Be it known that if you address any mail matter to a box number only at a post-office, or to "initials," the postmaster is instructed not to deliver it. This rule was made by the Department to prevent the commission of frauds upon the public, and is an excellent regulation.

EVERY time a State Legislature meets, some Bohemian is sure to write and say, "It is the finest looking and most intelligent body of men ever assembled in our State Capital." The fact is, that "bodies" are like circuses, they are all alike.

We learn that all of the lunatic asylums in our State, three in number, one each at Lexington, Anchorage and Hopkinsville, are filled with patients, and that in all probability, the next Legislature may be called upon to make an appropriation sufficient to erect a fourth asylum. When these institutions are crowded the inmates cannot possibly receive that attention and comfort which their unfortunate condition requires. Our Deaf and Dumb Asylums are, so far, ample for the comfortable accommodation of all applicants.

The trail is hot which has been traveled over by the whisky ring man, and, strange to say, it leads towards the Capitol itself, and several of the fly fixes may be "holed" near the White House. If so, dig'em out, Bristow, the honest majority of the people of your country will applaud you for, and uphold you in the successful chase, and consider you the faithful guardian of their treasury.

It was very appropriate in brother Beecher, to mention in his sermon on Thanksgiving day, that he knew of several female public school teachers near Brooklyn, who had obtained their positions on condition that they would prostitute themselves under the circumstances, to the directors. We know of no man more eminently fitted for a Director than brother Beecher, and hereby urge his appointment.

OAKLEY HALL, Ex-Mayor of New York, and a distinguished criminal lawyer, has written a drama and will perform the leading part himself at a theatre there. He has just discovered his histrionic talent and now proposes to convince the world that they have in him another Booth, if not one who is the superior of any actor or dramatic since the days of McCready and Shakespeare.

The Gas Company of the city of Brooklyn, put such prices on their gas, that the people of that city quit using it, and have resorted to coal-oil until they come down in their charges. That's the way to serve all monopolies and extortioners. It is the best known remedy for such an evil. Other corporations might be treated the same way, greatly to the interest of the public.

The blasphemy of some men in our country, hear the editor of a Chicago paper, who, in speaking of a number of men who had been hung, said, "they were suddenly jerked to Jesus." That fellow may think he has peculiar privilege because he is a newspaper man, but he should be severely punished for blasphemy and profanity, and scouted from decent society.

The hard-money men of both parties want Senator Anthony to be chosen speaker of the U. S. Senate in place of Hon. Thos. W. Ferry, the present incumbent, because Mr. Ferry is in sympathy with the West and South as to their views on finance, while Mr. Anthony favors the bond-holders and many Kings of the North and East.

If any citizen of this country has a right to look forward to the leadership of a great party, that man is Hon. Jeremiah S. Black, of Pennsylvania. If the Democratic party would place him in a position where he could display his immense talents, we believe, he would convince the world that all of our statesmen are not dead.

It having been reported that Commander Howell, of the ill-fated steamer Pacific, lost on the coast of Oregon so a week since, was drunk at the time, a survivor comes out in a flat denial of the charge, and says that Captain Howell was duly sober and at the post of duty, when the fatal collision with the Orpheus occurred.

GEN. S. G. BURBRIDGE, the Military satrap who ruled for a time in Kentucky, during the war, with an iron hand, has found a woman in Washington City, who is willing to link her name, fame, and fortune, with his. "There is no accounting for tastes."

The thermometer was 24 degrees below zero on Mount Washington, last Monday night. At Toronto, Canada, it fell 35 degrees in 24 hours, and the wind blew at a rate of 156 miles an hour. We may look for severe weather in a short time.

The 43rd Congress will not get in fair working order before the middle of next week. We may expect a lively time from that data on, for several months.

BEECHER's church members are not by any means certain that he is innocent of the charges preferred against him.

GEO. M. ADAMS, so far as is known has the inside track for the Clerkship of the U. S. Lower House of Congress.

It is said that the Naval preparations going on mean something of great importance. War with Spain seems to be imminent.

They have found poor little Charlie Ross, for the 28th time. He is now in Des Moines, Iowa.

The scandal concerning Gen. Babcock, the President's Secretary, grows in importance every day.

GARRARD COUNTY NEWS.

Lexington.

THANKSGIVING DAY was generally observed here the 25th; most of the business houses were closed, and services were held in the churches. The lady members of the Christian church gave a supper at the "City Hall," the proceeds (\$175), of which will be given for the benefit of the church.

PANORAMA.—Miss Alice and Nettie Stodell, of Danville, are here, visiting their sister, Mrs. W. D. Hopper.

ACQUAINTANCE.—Mr. Robinson, of Danville, is again here with his "dog," and goods are selling for any price. Another red flag announcement to the people of Lancaster. Chromo-animal, in fact they have seven beautiful pictures, and persons generally are availing themselves of this opportunity to beautify their homes.

We notice that our very efficient and polite Circuit Clerk, has added much to the appearance of his office, by hanging a beautiful supply of pictures on his walls, and we think we can safely say, that the Circuit Clerk of Garrard county, is the handsomest one in the State.

Rev. Mr. Miller, of Louisville, Ky., is holding a protracted meeting at the Baptist Church in this place, and is having good audiences. Mr. Miller is a very able man, and no doubt will do much good here. We believe the meeting is to continue through this week.

CADIZ COUNTY NEWS.

Middleburg.

A PROTRACTED meeting has been going on for the past week at Mt. Salem, conducted by the Rev. J. M. Salles. Five additional converts.

Mr. R. McWHORTER, lies very low with pneumonia; also, the wife of Robert Ross, is very ill at the house of Mr. H. H. McAninch.

Circuit Court is still in session at Liberty. It is thought that the Criminal Department will close on the whole Court, and the Civil cases will, most of them, have to lay over. Among the cases tried last week, Frank Lanham, for carrying concealed weapons, was fined \$50 and sentenced to ten days imprisonment. The Commonwealth vs. G. Wash Brown, for shooting at Thos. Snow, with intent to kill and wounding him, which case has been tried heretofore, and resulted in a hung jury, occupied five days of the present Court, and the jury was again hung. Brown was prosecuted by Commonwealth's Attorney, Deary, assisted by Jas. W. Alcorn, Col. Silas Adams, and others, and defended by Col. Frank Wolford, J. S. Von Winkle, J. E. Hays, M. C. Sanley, R. C. Warren, Jas. D. Holden, and George Stone. The case elicited some fine speeches from the legal gentlemen engaged, and especially that of Judge Sadler, we hear very highly commended. John Saunders, charged with killing his father, who has been running at large for several years, was arrested in Green county, and lodged in Liberty jail last Sunday evening. His trial has not come up yet.

In regard to our pet horse thieves, God's case was continued, and Floyd's was set for to-day. (Monday.)

STRANGELY FOREBODING.—"Falsified" alluded last week to a young man who went hunting and forgot to attend to his own wedding. Another day was appointed, and he made his appearance. The selected hour passed, no p. m. being on hand, on inquiry, it was found that he had forgotten either personally, or by proxy, to make any arrangements for the attendance of that necessary individual. A runner was sent out who brought in a clergyman, and the nuptial knot was tied.

We are called on to chronicle another sanguinary prize fight which took place on Main Street, in this place, on last Saturday. The candidates for championship, were a muscular Middleburg blacksmith, and a robust young farmer from near Poplar Hill. As we are not well versed in prize-fighting literature, critics will please be lenient. The one we employed to take notes, arrived on the ground just as the contest commenced.

Round 1st.—Vulcan elevates a stick and remarks that it is the third time that he has raised the stick, and he is going to strike. Rustie tells him to strike and be damned.

Round 2nd.—Vulcan advances—Rustie recoils.

Round 3rd.—Vulcan throws his stick, which Rustie dodges. Rustie casts a stone, which Vulcan attempts to dodge, but it strikes on the back, the stone bouncing some distance.

Round 4th.—Both make a rush for a stick. Rustie is the swiftest. Vulcan recoils. Rustie throws the stick.

Round 5th.—Vulcan obtains a club. Rustie gives back, and finds a brickbat.

At the commencement of the 6th round, a 300 pound Magistrate was seen approaching, and the friends of the combatants thought best to separate them. It was decided to be a drawn fight.

ETERNALITY.

DEATH.—On Carpenters' Creek, on the 25th ult., infant child of George Wilcher. On the 26th ult., infant daughter of William and Mary Lynn.

At the instance of Rev. Robert Taylor pastor of Concord Church, also "The Beautiful Little Bethel," the citizens are going to erect a Christmas Tree, the proceeds of which are to be appropriated to the S. S.

We learn that the report given our excellent teacher, Prof. N. B. Nash, by Mrs. Wm. Edwards, was quite a success in every respect. This dinner was given on the 23d ult., being the 25th anniversary of his life.

MR. A. CARPENTER, than whom there is none more energetic in the cattle trade, is still increasing his list of short horns. He bids fair to outstrip any cattle raiser in this portion of Kentucky.

The members of Lodge No. 1187 I. O. G. T., propose to have an open session on the night of the 14th inst. The exercises will consist of speeches, essays, reading of Lodge paper, etc. Among the speakers selected for the occasion are Messrs. Maxwell, of Lebanon, Rev. J. Y. Lemming, of Manchester, Taylor county, Ky., and Hon. L. G. Eble.

Prof. R. W. Huges, assisted by an excellent choir, propose to furnish music. A general invitation to all. CASEY.

MISCELLANEOUS.

HORRIBLE COAL OIL ACCIDENTS.

Would never happen if Fattive and FIRE-PROOF OIL.

Every day lives coal oil and houses destroyed by the use of this kind of oil, and the loss of life and property is enormous. Call on it as it has been called, but

Fire-Proof Coal Oil Cannot Explode.

It burns in a lamp with a wick with a brilliant light, and lasts longer to make it as economical as the common oil.

CHES. CARLEY & CO., GREAT SOUTHERN OIL WORKS, LOUISVILLE, KY.
